

## RECOMMENDATION

Based on the CAUTI Incidence graph, you have provided us with Pre- and Post-program Hospital- Acquired CAUTI rate data from your facility, so your report is complete.

- **Recommendation:** Congratulations! You have reduced your Hospital-Acquired CAUTI rate and increased your sustainability on the program. We hope you will share this report with your Leadership Team to further validate your decision to convert to the ERASE CAUTI program.
- **Deliverable:** If you would need any further assistance with the program, please contact your Program Manager, Lisa Marsek.
